Externships

The alumni listed below are available to be contacted regarding job shadowing. Students have the opportunity to visit an alumni in their workplace for a period of time during the summer or academic semester (schedule can be worked out between an individual alumni and student). Students will gain an insider’s view of a career by having the opportunity to observe day-to-day activities of someone in his/her desired field and discuss specific tasks, duties and responsibilities of the job. Contact the Career Services Office if interested in connecting with one of these alumni.
